

NOVEMBER 13 & 14 MONTREAL, QC

An Innovative, Hands-On Learning Experience
with **Dr. David Clark & Dr. Taras Konanec**

**Advanced Anterior Masterclass
for Complex Cases with the
Bioclear Method** (November 13)

**Restoring Challenging Posterior Composites
with the Bioclear Method: Advanced
Masterclass** (November 14)

ADVANCED ANTERIOR MASTERCLASS FOR COMPLEX CASES WITH THE BIOCLEAR METHOD

6.5 CE
CREDITS
HANDS-ON

NOVEMBER 13

This advanced program is designed to elevate clinicians' confidence and predictability when managing complex anterior cases using the Bioclear Method. Participants will learn how to rejuvenate the esthetic zone (canine to canine), integrating modern composite strategies to restore form, function, and esthetics. The course explores how to effectively combine matrices to manage challenging restorative scenarios with precision. Attendees will receive an updated review of the Five Pillars of the Bioclear Method.

The program will also introduce simple, practical approaches to safely open the vertical dimension and enhance the anterior arch form and smile design. Through clinical pearls, advanced workflows, and real-world case applications, participants will expand their esthetic design toolkit and leave with immediately applicable techniques to improve outcomes in modern anterior dentistry.

LEARNING OBJECTIVES

- Rejuvenate the full anterior from canine to canine.
- Learn and integrate next-generation anterior matrices through hands-on application.
- Discover simple techniques to open the anterior vertical dimension.
- Learn how to improve arch form while advancing your esthetic toolkit.
- Receive the latest update on the Five Pillars of the Bioclear Method.

PLEASE NOTE:

If you wear magnification loupes while practicing, we recommend you bring them to the Hands-On Courses.

ABOUT DR. CLARK

Dr. David Clark is the director of Bioclear Learning Centers International. He holds 36 patents internationally integral to the Bioclear Method and Bioclear Matrix System. Dr. Clark has developed the Bioclear Matrix System that promises a real advancement for placement of biologically appropriate, esthetically pleasing direct composite restorations for treating minimally invasive Class II preparations, diastema closure, and black triangle elimination combined with papilla regeneration, and traditional anterior composites.

He is a 1986 graduate of the University of Washington School of Dentistry and maintains a private practice in Tacoma, WA.

RESTORING CHALLENGING POSTERIOR COMPOSITES WITH THE BIOCLEAR METHOD: ADVANCED MASTERCLASS

6.5 CE
CREDITS
HANDS-ON

NOVEMBER 14

This advanced posterior workshop dives deep into modern posterior composite dentistry using the Bioclear Method. Participants will explore Class modern II cavity preparation designs and the engineering principles behind non-retentive, compression-based enamel driven restorations. Emphasis is placed on replacing outdated GV Black tension-based preparations with biologically respectful designs that leverage modern materials, tooth anatomy, and stress distribution.

Attendees will learn how to manage deep margins predictably, update failing alloy restorations, and create durable posterior composites that are stronger, cleaner, and longer lasting. This course is ideal for clinicians ready to move beyond traditional concepts and elevate their posterior restorative outcomes. Attendees will also be given suggestions for scheduling and appropriate fees for these “super restorations” that can sometimes avoid the high biologic cost of an indirect crown. Patients are increasingly looking for alternatives to traditional destructive techniques when the posterior tooth is compromised. This is that answer.

LEARNING OBJECTIVES

- Understand effective strategy and sequencing for completing multiple back-to-back Class II restorations
- Understand deep margin acquisition and predictable management techniques, including Selective Caries Removal.
- Optimize prep and matrix selection for predictable composite cusp(s) replacement
- Restoring endodontically treated teeth with a Bioclear Overlay instead of a crown.
- Learn to update GV Black-style preparations using engineering principles and create modern, non-retentive, compression-based designs.
- Receive an update of the 5 pillars of the Bioclear Method

ABOUT DR. KONANEC

Dr. Taras Konanec graduated from McGill University Faculty of Dentistry in 1997 and has been recognized as one of the Three Best Rated Cosmetic Dentists in Montreal from 2021–2025. A Bioclear and Biomimetic dentistry expert, he specializes in closing gaps, treating black triangles, and preserving natural tooth structure using minimally invasive techniques.

Dr. Konanec has 25 years of teaching experience at McGill, where he is Assistant Professor and Director of the Restorative Department. He also teaches the Bioclear Method nationally, helping dentists master modern, conservative restorative techniques with precision and care.

WHO SHOULD ATTEND?

Ideal for dentists and restorative hygienists with foundational Bioclear Method experience who are ready to advance their anterior and/or posterior restorations and refine their skills in the Bioclear injection molding technique.

MONTREAL (NOVEMBER 13 & 14)

Le Mount Stephen
1440 Drummond St,
Montreal, Quebec H3G 1V9

AGENDA

8:00am – 8:30am

Registration & Breakfast

8:30am – 12:00pm

Lecture & Hands-On

12:00pm – 1:00pm

Lunch Break

1:00pm - 4:30pm

Lecture & Hands-On

**SPACE IS LIMITED,
REGISTER TODAY**

Scan the QR code,
visit www.crd-ce.com, or
call **1-800-265-3444 ext 1**.

TUITION

Dentist/Associate/Restorative Hygienists:

1 Day: \$1499 | **2 Days:** \$1999

Dentist Tuition Includes a complimentary
Bioclear Chairside Patient Book!

Staff: \$250 per day*

*Limit of 1 staff registration per office (\$250 tuition).
Observatory only.

PLEASE NOTE: This course is
best suited for clinicians with
prior Bioclear experience.
Contact your CRD Clinical
Advisor if you're unsure this
course is right for you.

ADDITIONAL BIOCLEAR DATES & LOCATIONS

CALGARY (JUNE 26) & NORTH YORK (DECEMBER 1)

Advanced Anterior Masterclass for Complex Cases with the Bioclear Method

Clinical Research Dental
Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
1/1/2023 to 12/31/2026
Provider ID #208086

6.5 CE CREDITS PER DAY | AGD SUBJECT CODE: 250

Cancellation Fee / Details:

Full refunds will be granted if notification is received 45 days prior to the course. If cancellation occurs less than 45 days prior to the course, a \$150 fee per course will be withheld for processing and administrative costs. No refunds will be granted for cancellations made 21 days prior to the course.

CRD reserves the right to cancel courses due to insufficient registrations, instructor cancellation, or unforeseen circumstances beyond our control. In the event of course cancellation, a full refund will be issued, and registrants will be notified promptly. CRD is not liable for any associated losses, damages, or expenses, including travel and accommodations.
